

National Cultural Policy Submission

KOOLIN® Commonhealth

Submission to Creative Commons-Australia for National Cultural Policy

Title: *“WE are One, WE are KOOLIN® Multicultural Australia”:*

Holistic Sustainability, Innovation, Co-design, and Re-education for Social Inclusion and Creative Arts culture.

By KOOLIN® Commonhealth

www.habitatcreation.com.au,

www.australiasfirsttreaty.com.au

*“Media is the mirror of history, Family Is the reflection of Herstory™.”
Sustainability can be categorised into two storylines either history or herstory™, the inclusion of both.*

History is the education of evolution and upholding the right of business management for economic sustainability or Cross culture, which is where we are presently with Creative Australia 3d Commonwealth Education otherwise referred to as diversity and Australian, Aboriginal, Torres Strait, LGBTQIA+, and Refugee culture.

Herstory™ is inclusive of history and is the education of re-evolution and upholding the truth of business management for holistic sustainability or Multiculture, which is where we all need to go in the future for unity and a truly social inclusive and equal Multicultural and Sustainable society. This will also reverse climate change, species extinction, habitat destruction, pollution, contamination, racism, slavery, poverty, bullying, discrimination, inequality, domestic community and family violence, fraud, corruption, war, and unsustainable, unconstituted and unlawful mismanagement practices.

Colonisation and Latin Westminster Corporate Law which has created Australian arts and culture can be captured by the phrase, “Without war there is no peace, without sacrifice there is no victory”.

History will always repeat itself if it only protects economic sustainability for foreign law, policy, investment, and royal corporate culture.

Innovation, co-design, and re-educating culture to become a KOOLIN® Multicultural society can be captured by the phrase, “Without harmony there is no sustainability, without justice there is no community”.

To develop KOOLIN® Multicultural Australia, we must all re-evolve with learning, developing, investing, and creating with the competencies and accreditation of Multicultural Harmony and Holistic Sustainability or in other

words the 5d Multicultural Holistic Health Education which is inclusive of all cultures. Through unity and equality, together, we can collectively co-create and re-educate a society and a system allowing our Country and Nation to ensure a sustainable and harmonious future.

At KOOLIN® Commonwealth, we call that Creativity, Harmony, Unity, Social Inclusion, Culture, and Arts, Multicultural. Allow us to submit the road map to Holistic Sustainability and the 5d Multicultural Holistic Health Education or the new way social inclusive arts and education, Multicultural.
